About us

Park BBQ is building a network of public Grillpoints throughout Central Europe with one goal – to bring people back to the parks

„We want to connect people together because the best moments come with good food and the people we love.“

CITIES

ZOO

Conventional grills

✗ OPEN FIRE

High risk of fire from uncontrolled BBQ

✗ SMOKE

Smoke is everywhere

✗ MESS

From fossil fuel residues, ash, smoke, burnt lawn, etc.

Healthy end Ecological BBQ

✓ **HEALTHY METHOD OF GRILLING**

Grillpoints have an integrated drain for the removal of excess fat during BBQ so dangerous carcinogenic substances are not produced.

✓ **SAFE AND ENVIRONMENTALLY FRIENDLY**

Ceramic elements reflect heat energy directly on the heated surface which leads to the efficient use of electricity and minimization of heat losses. There is no risk of fire and there is no smoke or odor that would bother the surrounding area.

BBQ at any time

- ✓ *Adapted for year-round operation*
- ✓ *No need for winterization*

Examples of realizations

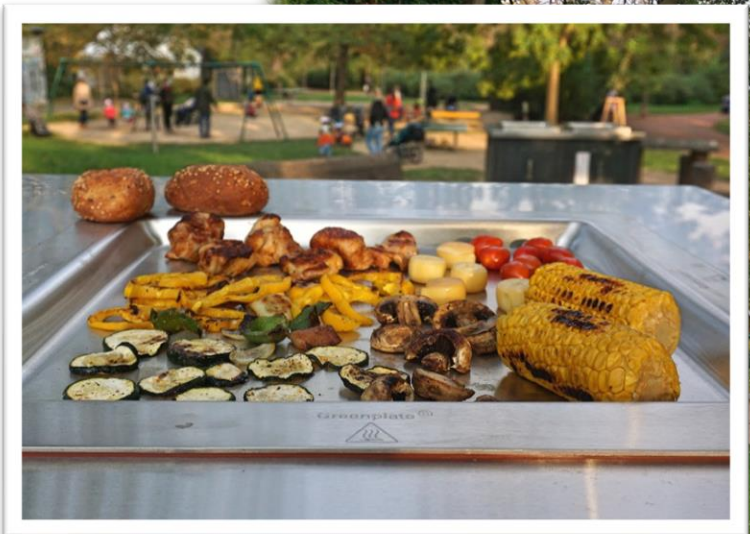

Vystaviste Holesovice, Prague

Spilberk Park, Brno

Central Park Lisen, Brno

Luzanky Park, Brno
